The Ohio Department of Transportation District 12, is responsible for the maintenance and construction on all Interstates, U.S. and State Routes in unincorporated municipalities in Cuyahoga, Geauga and Lake counties. Each spring, we shift our focus from snow and ice removal to the construction and maintenance of our roadways.

The 2020 Construction Program includes information about major construction projects in the District 12 tri-county area. This includes projects that are administered by ODOT and those that ODOT has contributed money to that are being administered by local agencies.

For the latest on District 12’s major Cleveland Urban Core Projects, and to sign up to receive project-related emails, motorists are encouraged to log on to the following websites:

- **Cleveland Innerbelt Corridor:** [www.Innerbelt.org](http://www.Innerbelt.org)
- **Opportunity Corridor:** [www.OpportunityCorridor.transportation.ohio.gov](http://www.OpportunityCorridor.transportation.ohio.gov)

As in every construction season, we ask motorists to use caution when traveling through work zones. By obeying posted speed limits and exercising caution, motorists can do their part to keep both our construction employees and fellow motorists safe.

Questions regarding District 12 construction projects can be directed to the Public Information Office at D12.Public.Information@dot.ohio.gov, 216-584-2006 or 216-584-2007.
