Construction Projects 2020:

District 2

Governor Mike DeWine | ODOT Director Jack Marchbanks
District Two Deputy Director Pat McColley, PE, SI
Thank you for your interest in the Ohio Department of Transportation - District 2’s 2020 Construction Program. This publication is intended to provide a general overview of construction projects planned for calendar year 2020.

The 2020 Construction Program is organized by county. County maps are included for your reference. To explore this book, please use the following information:

- **PID** - Project identification number used to differentiate projects
- **Estimated Cost** - the preliminary construction estimate
- **Award Date** - the date bidding ends and the project is awarded
- **Start/End Dates** - Dates identified before the project schedule is finalized
- **Project Description** - A brief summary of location and work to be performed

*New this year, projects requiring a full road closure are noted accordingly

All information provided is subject to change. Estimated cost does not include engineering or right-of-way.

Please keep this book on hand throughout the upcoming construction season. Information regarding construction projects is continually changing, including dates of traffic lane restrictions and closures. Maintenance projects conducted by ODOT crews are not outlined in this book. There are no capital programs construction projects planned for Fulton and Seneca counties in calendar year 2020, but there will be maintenance projects occurring throughout the year. We encourage you to sign up for weekly updates by visiting the District 2 website at www.transportation.ohio.gov/dist2, and using the subscribe feature at the bottom of the page. If you have any questions or require additional information, please contact us.
