

BENEFITS FOR BICYCLES, PEDESTRIANS AND TRANSIT

I-70/71 Downtown Ramp Up

Project 2E

Starts 2019

Completion Fall 2021

- **Pedestrians:**
 - A brick crosswalk and sidewalk extension will be installed along the north leg of the intersection at Fulton and 4th Street.
 - New brick crosswalks and sidewalks, along with a new traffic signal, will be constructed at the Parsons –Mooberry intersection, improving pedestrian safety.
 - Street trees will be planted along Fulton Street, between 3rd and 4th streets.
- **Bicycles:**
 - The Fulton Street bike lane will be extended from 4th to High

Project 3B

Starts 2020

Completion Summer 2022

- **Pedestrians:**
 - A new signal at Broad and Elijah Pierce will eliminate the free flow ramp to I-71 north.
 - Sidewalks will be extended from Long to Broad Streets along both new urban avenues – Lester Drive and Elijah Pierce Avenue.
 - Street trees will be planted between Long and Broad.
 - New, wider sidewalks, along with decorative bridge walls, fencing and planters will be constructed on the Broad Street Bridge.
- **Bicycle:**
 - Bike lanes along Lester and Elijah Pierce will be extended from Long Street to Broad Street.
 - The new Broad Street Bridge will have new bike lanes.

Project 4R

Starts 2020

Completion Fall 2022

- **Pedestrians:**
 - A new traffic signal at the Fulton and Front intersection will improve pedestrian safety by eliminating the free flow ramp at Front St. and adding curb bump outs along the east side of the intersection.
 - The new Front Street Bridge will include 10 foot wide sidewalks.
 - Street trees will be planted along Fulton Street, between Front and 3rd.
- **Bicycle:**
 - The Fulton Street bike lane will be extended to Front.
- **Transit:**
 - This project allows Livingston and Front to become two way streets.

Project 6R
Starts 2021
Completion Fall 2023

- **Pedestrians:**
 - Brick crosswalks and sidewalks are proposed at the Mound Street intersections with Short, Civic Center and Second for improved crosswalk visibility.
 - Street trees will be planted along Mound Street, from Short to Front.
 - A new sidewalk will be constructed along Short Street from Mound to Liberty Place.

- **Bicycles:**
 - A sharrow will be marked along Mound Street from Second to Front.
 - A new shared use path will be constructed along Short Street from Mound to the existing path across from Liberty Place.
